EXPERIENCE

As a developer, I can,

- Manage full-cycle design tasks, handling all phases from conception to completion while maintaining guidelines throughout.
- Collaborate with stakeholders during development processes to confirm creative proposals and design best practices.
- Review and test customer-facing prototypes before deployment, applying best practice diagnostic techniques to verify usability.
- Work in an Agile-driven environment to effectively maintain project timelines and utilize available resources.
- Design and update layouts to meet usability and performance requirements.
- Produce websites compatible with multiple browsers.
- Conceive and build optimized landing pages in HTML and CSS, including hosting and cross-browser compatibility, to support marketing.
- Develop user-oriented visuals and features using front-end languages, including HTML, CSS and Javascript, to increase site traffic.
